

ABOUT

A2TRADE is a Hybrid Broker/Exchange that seamlessly integrates all Fiat and Crypto payments across the platform. We will utilize the latest trading platforms, tools, and apps to create a single platform for all your trading and investing needs. The platform will support Trading and Exchange of all Broker and Exchange assets, including Cryptocurrencies, Stocks, Bonds, Indices, and CFDs (Forex, Crypto, and Commodities).

The Exchange will support physical assets (Gold and Diamonds). We will create a unified platform with shared E-wallets, eliminating the need for clients to use multiple PSPs and standalone Exchange platforms.

MISSION

To create a global trading and exchange ecosystem with a high level of mutual trust and maximum efficiency utilizing the best legacy trading systems, streamlined with blockchain technologies. Create a single ecosystem that operates seamlessly and efficiently in every aspect, including client on-boarding, trading, exchanging, and withdrawals/deposits.

FEATURES

Virtual E-wallets - A2TRADE supports 15 Crypto wallets for deposit, withdrawal, and storage. The initial wallets were selected based on high daily market volume, to provide our members with the best liquidity and fills. The final platform will support 44 Ewallets.

Exchange - A2TRADE will provide the following Cryptos on our MVP Exchange: ADA, BCH, BTC, B2BX, DASH, ETH, LTC, NEO, NEM, XRP, XMR, USDT, and ZEC, with exchange from Crypto to Crypto, Fiat to Crypto, Crypto to Fiat, and prepaid card. When funding milestones are reached, we will add physical exchange asset conversion.

Broker - The A2TRADE broker platform will add 1000+ tradable assets to the ecosystem. Broker assets include leveraged CFD trading for 27 Crypto pairs (3:1), Forex, and Commodities (100:1) – in addition to popular international Stocks (Shares), Bonds, and Indices.

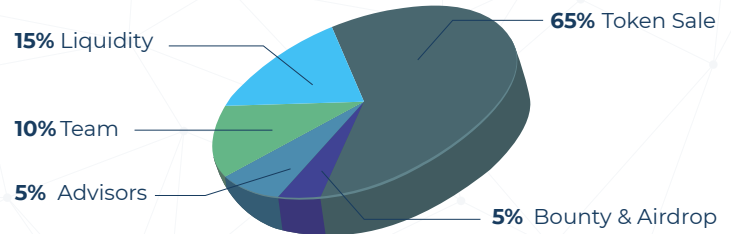

Platform - The A2TRADE platform offers the latest trading applications, MetaTrader 5 and cTrader. Easily trade with our desktop, mobile, and web versions. We will launch our own mobile and web trader to support exchange and asset trading.
